SUMMARY

Motivated IT student with hands-on experience in academic projects and a strong interest in Data Science. Passionate about analyzing data, building intelligent systems, and solving real-world problems using technology. Seeking opportunities to develop skills in data analysis, machine learning, and software development.

EDUCATION

Secondary Education Examination (SEE) Secondary Boarding School, Nepal	Itahari-2 , Nepal May 2021
+2 Management, Computer Science Koshi St. James College, Nepal	Itahari-2 , Nepal Jun 2024
BSc (Hons) in BIT, Bachlor in Information Technology Itahari International College (IIC), Nepal	Itahari-2 , Nepal Present

SKILLS

HTML, CSS, JS , Java , Python , Data Analysis , Teamwork , Problem Solving

LANGUAGES

English – B1 Nepali – A1 Hindi – B1

PROJECTS

Gym Membership Management System (Java Swing)

- Developed a desktop-based system for managing gym members and attendance.
- Implemented OOP concepts, GUI using Java Swing, and file handling.
- Added features like membership activation/deactivation and record tracking.

E-commerce Website for Second-hand Electronics

- Built a web-based platform for buying and selling used electronics.
- Focused on UI design, product listing, and basic system functionality.

Smart Home Automation (IoT Project)

- Developed an IoT-based system to control home appliances remotely.
- Worked with sensors and microcontrollers for automation.

Watch Website (HTML, CSS, JavaScript)

- Designed a responsive website with interactive frontend features.
- Improved understanding of web design and user experience.

Network Traffic Dataset Analysis (Jupyter Notebook)

- Performed basic data analysis using Python libraries.
- Learned data preprocessing, visualization, and dataset handling.
- Built foundation for future machine learning and data science projects.
